## TOWN WARRANT

## STATE OF NEW HAMPSHIRE

To the inhabitants of the town of Sunapee in the county of Sullivan in said state, qualified to vote in town affairs:

You are hereby notified to meet at I. O. O. F. Hall in said Sunapee on Tuesday, the eighth day of March next, at nine of the clock in the forenoon, to act upon the following subjects;

Art. 1. To choose a town clerk for the year ensuing.

Art. 2. To hear the reports of the town treasurer, board of selectmen, water commissioners, auditors, agents and committees or other officers heretofore chosen, and pass any vote relating thereto.

Art. 3. To elect three selectmen, one for three years, one for two years and one for one year.

Art. 4. To elect all other necessary town officers for the year ensuing.

Art. 5. To see what sum of money the town will raise to pay the outstanding debts and interest on its notes and water bonds and pass any vote relating thereto.

Art. 6. To see what sum of money the town will raise to pay its water bonds, due Jan 1, 1922, and pass any vote relating thereto.

Art. 7. To see what sum of money the town will raise to defray town charges for the year ensuing, and pass any vote relating thereto.

Art. 8. To see what sum of money the town will raise to repair highways and bridges for the year ensuing and pass any vote relating thereto.

Art. 9. To see if the town will vote to raise three thousand one hundred and twenty-five dollars (\$3,125.00) to maintain its trunk line highways, and pass any vote relating thereto.

Art. 10. So see if the town will vote to accept state aid for highways, raise and appropriate money for the same, and pass any vote relating thereto.

Art. 11. To see if the town will vote to accept the provisions of Chapter 117, Laws of 1917, on a section of the Central Road, so-called, and appropriate, or set aside from the amount raised for highway

work the sum of two hundred fifty dollars (\$250.00) for this purpose.

Art. 12. To see what sum of money the town will raise for electric lights, and pass any vote relating thereto.

Art. 13. To see what sum of money the town will raise to maintain its fire department, and pass any vote relating thereto.

Art. 14. To see what sum of money the town will raise for the care of its cemeteries, and pass any vote relating thereto.

Art. 15. To see what sum of money the town will raise for the maintenance of its public library, and pass any vote relating thereto.

Art. 16. To see what action the town will take in regard to the bridge at George's Mills, (near Earl Martin's garage) raise and appropriate money for the same, and pass any vote relating thereto.

Art. 17. To see if the town will vote to license junk dealers, and pass any vote relating thereto.

Art. 18. To see if the town will vote to instruct its selectmen to hire money on the anticipation of taxes, and pass any vote relating thereto.

Art. 19. To see if the town will vote to remain a part of the community Nurse Association, and see what sum of money the town will raise to support the same.

Art. 20. To see what sum of money the town will raise for the observance of Old Home Week, and pass any vote relating thereto.

Art. 21. To see what sum of money the town will vote to raise to cooperate with the state and federal government in the control of the white pine blister rust, and pass any vote relating thereto.

Art. 22. To see what action the town will take in regard to the purchase of a combination auto fire truck, raise and appropriate money for the same, and pass any vote relating thereto.

Art. 23. To see what action the town will take in regard to changing the suction pipe now supplying the town water pumps to a gravity flow, raise or appropriate money for the same, and pass any vote relating thereto.

Art. 24. To see if the town will vote to instruct the water commissioners to extend the water service from the end of the main at the lower village to the house owned by Mr. Nickerson and pass any vote relating thereto.

Art. 25. To see if the town will vote to pay a reward of fifty dollars (\$50.00) for information that will lead to the arrest and conviction of any party that mutilates, destroys or breaks into any summer cottage on the Sunapee shore of Lake Sunapee.

Art. 26. To see what action the town will take towards a town history and raise or appropriate money for the same.

Art. 27. To see if the town will vote to receive proposals for building sites, during the year 1921, for the Abbott Library, the site to be selected by a vote of the town at the annual meeting in 1922.

Art. 28. To see what action the town will take in regard to providing a place for tramps at the fire station, or elsewhere, raise or appropriate money for the same, and pass any vote relating thereto.

Art. 29. To bring in your ballots upon each of the questions submitted by the Convention to Revise the Constitution relative to the amendments proposed by said Convention at a session held on January 28, 1921.

Art. 30. To transact any other business that may legally come before said meeting.

Given under our hands and seal, this twenty-first day of February, in the year of our Lord nineteen hundred and twenty-one.

FRANK M. HARDING,	}	Selectmen of Sunapee.
LEO L. OSBORNE,		
WARREN F. MORGAN,

## REPORT OF AUDITORS

Sunapee, N. H., February 18, 1921.

We, the undersigned, have this day examined the accounts of the selectmen and other town officers, and find same correctly cast and properly vouched.

FRED NOYES,	}	Auditors.
GEO. E. GARDNER,		
CHAS. G. HUTTON,		

## REPORT OF HEALTH OFFICER

Fortune surely smiled on the town during the past year as only one contagious disease was reported, that being a case of measles.

It would be well for all to bear in mind the worth of the district nurse to the town and if those who have been fortunate enough not to need her services would kindly contribute to the nurses fund they would be assisting their unfortunate neighbor and helping a most worthy cause.

The value of the nurse in our public schools, co-operating with teachers and parents for the best interest of the scholars should not be under estimated.

The purchase of the Leavitt land by the selectmen, on the Georges Mill road, for a town dump should meet the hearty approval of all. This land affords an ideal dumping place, off the highway, over a precipice which when congested can be easily burned thus affording a dumping place for all time.

The advent of the septic tank and Kaustine toilet has in a large measure solved the problem for taking care of the sewage of the home in a sanitary manner and with but little expense.

Respectfully submitted,

A. D. FELCH, Health Officer.

## ENGINEERS' REPORT OF FIRE DEPARTMENT

Another year has rolled by and we are glad to say that there is nothing serious to report in the way of fire loss. The fire apparatus of the department is in as good condition as in past years. During the past year the department had to vacate the building that had been fixed up for their use on School street and move into the building the town bought on East Main street, formerly Sawyer's stable. This building was all right for what it was built for, but now as it will be used permanently for the fire department, there should be some changes and repairs made to make it suitable for the purpose.

We are getting more and more handicapped every year for ways to handle the apparatus in case of fires. The number of horses has been growing less in the village for the past two or three years and now, in case of fire, we do not know whether there will be a horse to help or not. It is impossible for the men to do the work of horses and be in any condition to work at a fire when they get there. If the town wishes to keep the fire protection of the town up to former years, there should be some action taken on this matter.

There has been only three bell alarms during the year, but several "stills" have been answered by members of the department for chimney fires.

During the past year the department has been called to suffer the loss by death of two of its engineers, M. O. Blood and A. W. Russell, both of Georges Mills. Mr. Blood was taken away by sickness and Mr. Russell by the bullet of an assassin. Both had been associated with the fire department since it was organized and were valuable

members and good citizens of the town and their loss is lamented by the whole town.

## DATE OF FIRES

April 28, Box 19, chimney, no damage.

May 27, Box 27, J. H. Young, damage \$50.00. Insurance, \$50.00.

Sept. 2, Box 19, W. J. Hardy, barn, total loss. Insurance, \$50.00.

# SCHOOL REPORT

DISTRICT OF

SUNAPEE, N. H.

## REPORT OF SCHOOL BOARD

To the Citizens of Sunapee:-

We would call your attention to the report of the Superintendent and ask your hearty cooperation with him, also with the efforts of the teachers and school board to improve our schools and interest the pupils. We feel that much has been accomplished during the year by the Superintendent and we join with him in asking parents and friends to visit the school and see for themselves the work being done.

We have transported the pupils from South Sunapee (there being only five) to Wendell, and the Center school, leaving those below the seventh grade at Wendell and bringing those in the seventh and eighth grades from both South Sunapee and Wendell to the Center school, thus relieving the teacher of Wendell of so many grades, (she would have had the entire eight grades) giving the scholars better advantages. While perhaps the transportation has not been as satisfactory as it might have been to some, it seemed to be the best we could give at this time. We are in hopes to improve upon it in the future.

The school building at Georges Mills and Wendell have been partly remodeled, the work not being finished on account of not being able to get the work done earlier in the season. The remainder of the work will be done during the Easter vacation, (painting the interior).

The Agricultural class is occupying the building, which was formerly owned by the fire department, and proper equipment and tools called for by the department being purchased.

In the fall the pupils of the agricultural department

and those having school gardens held a fair, which was well attended. The good showing made, shows what they can and will do if given encouragement.

We were quite fortunate in retaining the teachers of the past year with but two exceptions. These two being replaced by Mrs. Florette Currier Nolan at Georges Mills and one at Wendell, where we were not so fortunate as to secure one for the year; being obliged to substitute from Keene Normal School during the fall term, the second term being taught by Mrs. Carey of Newport. We are in hopes of retaining her for the remainder of the year.

This year the school warrant will not be printed in the town report, as we thought best to delay the school meeting, there being bills and amendments of the present school laws before the legislature which might, if passed, require different appropriations than the present law.

Respectfully submitted,

PEARL M. PERKINS,	} School Board.
JAMES L. BROOKS,	
HATTIE M. SMITH,	

## ESTIMATE

The school board submit the following estimate sum of money which will be required during the ensuing fiscal year for the purchase of text books and school supplies—\$600.00.

## SUPERINTENDENT'S REPORT

To the School Board of Sunapee;—

I hereby submit my fifth annual report of your schools for your consideration and approval.

### TEACHERS

Nearly all of our teachers returned to us last fall. They had done good work the preceding year and we hoped by retaining them to improve our schools even more than we did the preceding year. The real teacher becomes more valuable to the town in which she works the longer she stays. The success or failure of a school depends very largely upon the teacher. It is safe to say as the teacher is, so the school will become. I have seen a school that seemed to be almost gone to pieces converted into an ideal school within a few weeks under another teacher. It is not only what the teacher is and does in the schoolroom but also what she is and does on the schoolgrounds and outside of school that counts. The real teacher can never be paid in dollars, she is beyond price. When once a town has a real teacher a few extra dollars should not let another town get her. The children of a town are its greatest asset. We can never do too much for them.

I am going to mention only one teacher in particular, Mrs. Florett Currier Nolan. I mention her, not because she is the best teacher in town, but because she is a Sunapee girl teaching her first school and is the only teacher with us for the first time. Mrs. Nolan is doing good work and is constantly growing. She is always ready for suggestions and help, takes them in the right spirit and tries at once to put them into effect. I bespeak for her a suc-

cessful year. She is the kind of a teacher a superintendent enjoys working with. Please do not misunderstand me, we have other teachers of the same type but they have been with us longer and have been spoken of in other reports.

We regretted very much to have Miss Gertrude Call leave the Sunapee corps of teachers and did all we could to have her remain, but when we found that she would not we succeeded in placing her in the Guild school. What was Sunapee's loss has been Newport's gain. We consider Miss Call one of our very best teachers.

Miss Bennett was another good teacher who would not teach any longer in Sunapee. We placed her in the East Unity school, where she is doing good work.

We do not intend to transfer a teacher from one of our towns to another so long as we are able to retain them in the original town, but if they are good teachers and absolutely refuse to remain where they are, rather than to lose them entirely we transfer them if we have a suitable school for them. Our theory is that we may as well have them as for some other superintendent to have them.

#### TEXT BOOKS AND SUPPLIES

No radical changes have been made in text books. Several sets of new readers have been added, as more reading is being required, especially in the lower grades.

The "Book of Knowledge," a set of reference books for the upper grades, have been placed in the grammar room. A few other reference books have been added to the reference shelves of the high school and grades. The agricultural department has called for a great many reference books.

There has been a very marked advance in the price of

books during the year. Books were among the last things to advance in price but when they did advance it was with rapid and long strides. Not only have they advanced in price, but they have depreciated in material and workmanship.

Supplies advanced in price much earlier than books. Teachers and pupils have tried hard to keep the expense of supplies as low as possible.

#### IMPROVEMENTS MADE

Georges Mills—The windows have been taken from the south side and put into the north side of the building, admitting the light from the rear and left side of the pupils. This does away with the injurious cross lights that we had when windows were in each side of the room. This change adds much to the comfort of the pupils while studying. The desks and seats have been rearranged, putting seats of the same size in a row, doing away with having a pupil sitting in a large seat and leaning over to work on a low desk, thus injuring spine, lungs and eyes.

Wendell—Similar changes have been made here as at Georges Mills with the same satisfactory results.

Center—The concrete steps are a great improvement over the old wooden steps. The extension of the fire escape to the ground makes it much safer should it ever have to be used as an escape from fire.

The addition of the "Fire house" as an auxilliary to the Center building has added much to the efficiency of this school, both as a play room and as a work shop. The citizens have certainly responded generously to the call of their schools. It is now up to teachers and officials to do their part. Some times I fear we have not done it. For one I am determined to try harder than ever. A superin-

tendent is dependent wholly upon his teachers, still he is not excusable if he fails to get results. We must each face our own responsibilities.

#### IMPROVEMENTS NEEDED

The stove in the Collins school ought to be jacketed and a pipe ventilator installed. The windows should be changed to one side of the room.

The rooms where changes have been made in the wall and windows ought to be tinted. The old paper on the walls should be removed.

The interior of the Center building needs to be painted, whitened and tinted. The plastering on the ceiling of some of the rooms of this building has fallen off, and more is about to fall. I recommend that a steel ceiling be installed instead of replastering. It may cost a little more at first but will be cheaper in the end and very much more satisfactory.

The rural buildings ought to be painted, one or two a year until all are painted.

The Allen adjustable shades should be installed gradually until all windows have them. A translucent shade is much better for a school room than an opaque one.

Hyloplate or slate blackboards are very much needed in the small recitation room of the Center building.

Now that material is coming down in price, the boys toilets in the Center building should be put into order before another fall.

#### MEDICAL INSPECTION

Much good has been accomplished by your school nurse. Much more might be if the parents would respond more promptly to her suggestions and reports. Several children are back in their school work because of some physical de-

fect that may easily be removed or overcome. Nearly every case where a child is thought to be mentally deficient he is found to have some curable physical defect. A few children have been found to be almost blind who are backward in their classes for this reason. We hope the town will continue this department.

#### TRANSPORTATION

Our transportation has not been entirely satisfactory to any of us. It seems to be the best we can do at present but some more satisfactory way ought to be devised for another year if not before.

I am anxious for the boys and girls in our rural schools to have the advantages of the upper grade work in the Center school that they may get as much as possible from the elementary school and be as well prepared for the high school as any of the village boys and girls. Of course this often means that the parents and pupils must be willing to make some sacrifice and to put up with some inconveniences. On the other hand we ought to do all we can to make the pupils safe and comfortable on the road.

#### PLAYGROUNDS

We are not giving the children nearly as much in their play periods as we should. Children learn much from rightly conducted games and play. We need some more apparatus for them, not expensive but home made, practical apparatus. But what they need even more than apparatus is two or more teachers on the ground with them who are really interested in them and their plays, teachers who like to play with them and will supervise them and improvise games for them. May I here publicly commend

Mrs. Bartlett for her interest and help in the playground?  
I wish that every teacher might do as well.

## GENERAL

We wish to call attention to the reports of Headmaster Rowe and School Nurse, Miss Davis.

In closing I want to thank all who have in any way contributed to the efficiency of our work and the improvement of our schools. The longer I remain with you the more I become attached to your town and the greater is my interest in its welfare and prosperity, It is a pleasure to work with you and to serve your town. My one great desire is to make your schools more efficient and to help develop your boys and girls into good, happy and prosperous citizens.

Respectfully submitted,

W. H. S. ELLINGWOOD, Superintendent of Schools.

## HEADMASTER'S REPORT

To the Superintendent of Schools :-

I hereby submit my first report of Sunapee High School for your consideration and approval.

The High School opened in September last, with all but three of our undergraduates back with us, and an entering class of eight regular students and one special student. One member of the entering class stayed with us only three weeks, but the enrollment of another girl at that time kept the number the same as at the beginning and the class on the whole is doing very creditable work. Out of a registration of ten, doing the second year's work, we have only four left at the present time. Three of those to leave had been doing very poor work. One entered the High School at Concord and the others, although doing creditable work, were not able to remain in school on account of home conditions. I am hopeful that those boys and girls making up the group last mentioned, may be back next year as they are pupils a school can ill afford to lose. The junior class, with a membership of five, and the seniors, with two, are still with us and doing excellent work. Besides the number accounted for above, we have one special student doing part time work.

Our agricultural fair and the results of the garden projects, required of the boys in the agricultural course, have been a great stimulus and I am looking for a very successful year. I am very sure that one of the strong factors in that success will be the fact that the parents are coming to realize that if they wish their boys to get the most out of their school work, they must assist in every possible way in helping the boy put into practice the

things learned in school.

The Domestic Arts course seems to be well established and, judging from the meals that are cooked and served and the garments made by the girls, I feel that the future usefulness and therefore happiness of our girls is being greatly increased.

"The Profile," our school paper prepared by the High School pupils this year for the first time, is, I believe, a step in the right direction. The annual publication of a school paper cannot help but benefit the pupils.

The "Fire House," the agricultural or workshop equipment, so generously placed at our disposal by the tax payers of Sunapee, have been a very great help. We have been enabled to carry on our wood and iron work without disturbing the rest of the pupils. Many happy and profitable hours have been spent in playing basket ball by boys of the high school and grammar grades in this building.

In closing, I wish to thank all who have helped to make my past year's work one of pleasure and value to our boys and girls.

Respectfully submitted,

CHARLES W. ROWE.

## MEDICAL REPORT

To the School Board of Sunapee, N. H.—

At the request of Mr. Ellingwood, I present the following brief report of my work since coming here May 15.

It has given me great pleasure to serve the people of Sunapee, who have been more than kind and generous, big-hearted in all their dealings with me. They have done everything possible to make my life and work among them a joy.

As soon as blanks were received, school examinations were begun and continued until the close of school in June. It was a hurried going-over of each child, but many defects were discovered and cards sent home. Mothers received these most kindly and some needed no second invitation before correcting them. Others quickly responded to a personal call.

There are many cases of enlarged diseased tonsils, bad adenoid growths, decayed teeth and defective eyes that need the work of skillful physicians, dentists and oculists. To neglect or put off attending to these seemingly minor ailments, is to deny your child an equal chance in school, in life with your neighbor's child. Life is hard enough at best. Give your child every advantage, remove every hindrance to his or her success.

The children were measured and weighed in May or June and again in the fall in the Center school. About one fifth are under weight or over weight for their age and height. Defects such as adenoids, diseased tonsils, decayed teeth, improper food, unhygienic surroundings in the home and over-work are the principal underlying causes found.

All can be corrected with the cooperation which is

ever widening and deepening among the parents of Sunapee. We know we can depend on you to do your best and help us help your children to have a good start in life.

In October, a Health Crusade was begun in the Center school, Wendell and Collin's District schools. From October until the crusade ended late in January, few children had colds and no contagious diseases occurred, though scarlet fever and diphtheria both, had victims in Newport, though no serious cases.

We thank the teachers and mothers in their cooperation in the crusade and trust the good habits will be encouraged the more, now there is no crusade to spur them to diligence.

The health chores were only the little things children should do every day, the things mother should teach them. We are only trying to make it easier for mother to train her child in healthy ways.

Brief talks were given to schools or classes at different times.

Home nursing classes have been conducted almost every week since the first of October with good attendance and interest. A few of the high school girls took in the first few classes, but the classes have been held for the women and Red Cross certificates will be given to those who have qualified for them.

It was good to see that the children in the schools had something hot with their lunch at noon. Children need warm nourishing food three times a day during the cold months especially. Much more may be done along this line to meet the need of the children unable to go home to a good hot dinner. With more means and cooperation and encouragement on the part of parents, school board and teachers, lunches could soon be put on almost a self sup-

porting basis, in the Center school at least. Hot soups, cocoa and milk could be served in the district schools. Parents could provide wholesome lunches of sandwiches, with oft varied fillings, a small jar of sauce or berries, adding occasionally a cookie or bit of cake and fruit in season.

The school teachers, nurse, school board and superintendent are here to help your children. What we do, we mean to serve you as parents. We can not succeed in this, our one purpose without your most hearty and sympathetic cooperation, which we know you will give at all times.

Sincerely yours,

MYRTLE A. DAVIS, R. N.

### Statistical Report of Georges Mills School

Number of pupils examined	24
Eye examinations by oculists	3
Tonsil and adenoid operations	2
Dental work	4
Follow-up visits in homes	68

Very truly yours,

H. P. L. STRYKER.
